BOOK SYNOPSIS

For generations, humanity stared at the vastness of the oceans and wondered, "What if?" Today, having explored the curves of the Earth, we now stare at endless stars and wonder, "What if?" Our technology has brought us to the make-or-break moment in human history. We can either grow complacent, and go extinct like the dinosaurs, or spread throughout the cosmos, as Carl Sagan dreamed of. What if your toothbrush becomes smarter than you? What happens to your business, your country, your planet and yourself? What if your car doesn't need a driver anymore? What if we don't need to age and die? What if machines are smarter than us? What if, instead of fear of the future - you see opportunity, instead of an end - you see a beginning, instead of loss - you see profit, and instead of death - you see life? What if you and your organization get future-primed? For many years Nikola Danaylov has been interviewing the future and motivating people all over the world to embrace rather than fear it. "Conversations with the Future" was born from those interviews and Nik's unceasing need to explore "What If" with some of the most forward thinking visionaries in the world today.

CONVERSATIONS WITH THE FUTURE 21 VISIONS FOR THE 21ST

CENTURY - Are you looking for Ebook Conversations With The Future 21 Visions For The 21st Century?
